

Product	lb/US Gal	Flash Point	Product Description
GMA130	N/A	N/A	Non-slip aggregate for deck systems.
GMA131	N/A	N/A	Non-slip aggregate for deck systems.
GMA197	N/A	N/A	Non-slip aggregate for deck systems.
GMA733	N/A	N/A	Non-slip aggregate for deck systems.
GMA904	N/A	N/A	Conventional paint and varnish remover.
GTA004	6.55	95°F	A thinner and equipment cleaner for use with Interclene, Interlac, Interprime and some one pack Intertuf products.
GTA007	7.22	79°F	A thinner and equipment cleaner for use with Interchlor, Interclene, Interfine, Interprime, Intersheen, Intersleek, Intersmooth, Interspeed, Interswift, Intertherm and certain one pack Intertuf products as well as Intershield epoxy non-skid deck coatings.
GTA056	6.89	102°F	A thinner and equipment cleaner for use with certain Intershield and Interthane polyurethane products in North America.
GTA065	7.64	88°F	A reactive thinner for use with certain polyester systems.
GTA075	7.02	37°F	A thinner for use with certain epoxy shop (pre-construction) primers in South America.
GTA136	6.63	54°F	A thinner and equipment cleaner for use with certain Interplate zinc silicate shop (pre-construction) primers.
GTA137	6.97	90°F	A thinner and equipment cleaner for use with certain epoxy primers and polyurethane finishes in South America.
GTA138	7.73	90°F	A thinner and equipment cleaner for use with certain Interzinc zinc silicate products.
GTA220	7.14	81°F	A thinner and equipment cleaner for use with Interbond, Intergard, Interline and Intershield products as well as Intertuf coal tar epoxies and Interzinc zinc epoxies.
GTA223	7.14	77°F	A thinner and equipment cleaner for use with certain epoxy products.
GTA407	59.20	66°F	A thinner and equipment cleaner for use with vinyl antifouling in North America.
GTA415	7.31	77°F	A thinner and/or equipment cleaner for use with certain Intergard and Interline epoxies and with certain Interplate and Interzinc products.
GTA713	7.64	86°F	A thinner and equipment cleaner for use with Interthane polyurethane and Intertuf pitch urethane products.
GTA803	6.89	1°F	A thinner and equipment cleaner for use with certain Interplate and Interzinc products.
GTA820	6.89	41°F	A thinner and equipment cleaner for use with certain Interplate shop (pre-construction) primers.
GTA822	7.14	81°F	An equipment cleaner for use with Interbond, Intergard, Interline and Intershield epoxies as well as certain Intertuf coal tar epoxies and Intersleek products.
GTA840	6.97	63°F	A thinner and equipment cleaner for use with certain Interplate shop (pre-construction) primers.
GTA853	6.89	59°F	A thinner and equipment cleaner for use with Intertuf one pack vinyl tar.
5822	7.05	90°F	A thinner and equipment cleaner for use with certain Epoxy MIL-SPEC products in North America.
7754D	N/A	N/A	A non-slip aggregate for Interzone 1000 systems.

REGULATORY
DATA

The EPA has defined almost all solvent, including all those contained herein, as photochemically active. The exceptions include methanol, ethanol, and a few halogenated solvents such as methylene chloride.
